Important Notice Mexico Travel Restrictions on Electronic Devices

Please be aware that the government of Mexico has placed restrictions on the number of electronic devices and other equipment when entering the country.

ONE portable computer, laptop, tablet or similar computing device (e.g. an iPad) can be imported per passenger without incurring any import fee.

However, there are restrictions on multiple devices.

Additional devices are considered separate items and may result in an import fee.

Other limitations include:

- 3 cell phones
- 2 cameras
- 1 pair of binoculars
- 1 dedicated GPS device
- 4 fishing poles

Additional items exceeding these restrictions and limitations may result in customs duties, which begin at 19% of the items' value. Reports have been made about duties imposed that exceed the items' original value.
